U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
on AUGUST 7, 1977
- Export Shipments in
Current Marketing Year
- Daily Sales Reported
AUGUST 8 - 14, 1977
--As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

COMMENTS PREPARED BY THE OFFICE OF THE GENERAL SALES MANAGER

EXPORT SALES REPORT

Comments on release of August 18, 1977 (based on reports from exporters for the week ending August 7 unless otherwise noted).

Wheat: New sales activity was moderate. Mexico's purchases of 109,600 metric tons (MT) of Hard Red Winter and Soft Red Winter reflect this year's small crop. Japan, Venezuela and several European countries added small quantities to prior purchases. Sales reported under the daily system were notable as the Soviet Union purchased 566,667 MT for marketing year (MY) 1977/78 and 83,333 MT for 1978/79. In addition, 101,600 MT previously reported to unknown destinations were switched to the Soviet Union for export this MY. The volume of exports dropped sharply (545,000 MT) from last week's yearly high.

Corn: Sales activity moderated after the surge of business last week. Principal buyers included Mexico, Spain and other European countries. A significant decrease in sales to unknown destinations resulted from the assignment to specific destinations, including the Netherlands, Belgium and Japan. Sales to the Soviet Union rose as new sales of 950,000 MT were reported under the daily system. Numerous other countries made minor purchases for the fast approaching new marketing year. Export clearances (622,300 MT) registered a fair gain and have now reached almost 90 percent of the USDA projection.

Barley: Activity picked up from last week. The switch from unknown and export of 15,300 MT to France and sales of 19,100 MT to unknown destinations were reported from the current MY. Exports of 10,500 MT to Colombia and 3,100 MT to Korea contributed toward the week's heavy export.

Sorghum: Total sales for the current MY continued to climb with reported sales to Japan, Spain and unknown destinations. Sales for 1977/78 reflected a 90,000 MT sale to Japan. Exports of 45,600 MT were reported to Portugal and Mexico.

Rice: Sales activity declined from last week with new sales reported to the Soviet Union (6,400 MT), Togo (5,100 MT) and Lebanon (5,000 MT) under PL-480. Sales of 6,300 MT to Iran were cancelled. Exports during the first week of the 1977/78 MY totalled 49,000 MT with shipments to Indonesia accounting for almost half the total.

Soybeans: Net sales for 1976/77 were minimal (5,100 MT) as sales reductions to the EC (40,800 MT) nearly equalled sales to Japan and Canada. However, sales were good for 1977/78 with the Netherlands, Mexico and Taiwan in the market. Exports of 87,000 MT were down drastically from the previous week going primarily to Japan, Mexico and Taiwan.

Soybean Cake and Meal: Sales cancellations exceeded new sales for the week, resulting in a 66,300 MT reduction in total 1976/77 sales. There were modest sales for 1977/78 with sales to Italy and unknown destinations. Weekly exports of 85,100 MT went to the Netherlands (59 percent), Canada (14 percent) and Venezuela (12 percent).

Soybean Oil: New sales for 1976/77 were slow as buyers shifted their attention to 1977/78. Peru and Switzerland added to next MY purchases. In addition, there were optional origin sales of 20,000 MT reported to unknown destinations.

Cotton: Sales activity remains good as MY 1977/78 sales were increased principally to Korea 69,200 RB, Taiwan 11,500 RB and Indonesia 7,900 RB. Despite the decline in prices since March, sales for MY 1977/78 have been large and after only one week into the new MY total 3,702,400 RB - 84 percent of the official export projection. Weekly exports slowed as 53,700 RB were lifted, 85 percent to Asia.

Oats: No significant activity.

Data shown above may not add due to rounding. 1/ Includes increases resulting from new sales, upward contract adjustments, shifts in delivery period from one marketing year to another and changes from one commodity to another. 2/ Net foreign purchase activity. A purchase from a foreign seller is a transaction contracting to buy U.S. produced commodity from a firm outside the U.S. -- not involving a cancellation or buy-back of a reported sale. 3/ Includes decreases resulting from buy-backs of all or part of a contract balance by mutual consent, unilateral cancellation by one party which would result in a contract dispute, downward contract adjustments, shifts in delivery period from one marketing year to another, and changes from one commodity to another. 4/ Does not include exports for exporter's own account.
